

REMARKS

Applicants have proposed amending the drawings by adding Figure 5, showing subject matter described in the originally-filed specification and claimed in the originally-filed claims. Namely, FIG. 5 shows a breakout harness without a module, as described in original paragraph [016]. Applicants have also amended specification paragraphs [009] and [016], and added paragraph [011.1], to make explicit reference to Figure 5. Applicants submit that the amendments are supported by the original disclosure and merely bring the various parts of the disclosure into conformity with each other. Further, no new matter has been added by any of the above amendments.

Applicants have also added new claims 8-11, to specifically claim various inventive combinations and sub-combinations not appearing in claims 1-7.

Accordingly, Applicants respectfully request that the Examiner enter this Supplemental Preliminary Amendment prior to substantive examination of the application. The Examiner is hereby authorized to charge any fee including any extra claim fee or other fee due in connection with the filing of this Supplemental Preliminary Amendment and not accounted for elsewhere to Deposit Account No. 19-2167. Any overpayment should be credited to Deposit Account No. 19-2167.

Respectfully submitted,

Timothy J. Aberle
Attorney for Applicants
